

The Immunization Network for Children location has changed. If you have not signed up, please go to:

<http://www.healthy.arkansas.gov/programsServices/infectiousDisease/communicableDiseaseImmunizations/Pages/FAQs.aspx>

On the website, you can print the application, complete it, and then fax the application to the number listed on the form. Once it is processed, they will contact you to give you the link and log in information.

On the website, there is also a link called "Accessing the Registry" and "Finding Clients". It walks you through what to do once you are able to access the registry. A screen shot of the web page is below:

Communicable Disease & Immunizations

Frequently Asked Questions

Q: As a licensed daycare facility in Arkansas, how can I access and view the Immunization Network for Children (INC) registry?

Answer: Download and print the following form and return it to the address listed on the form via e-mail, fax or mail. After the Immunization Section receives your application, they will contact you with a user name and password. Once you receive your personal user name and password, the following documents will direct you to accessing the registry and offer a tutorial on locating an immunization record.
